

Process for Picking Your Puppy:

I go by the date I receive deposits (\$250.00) as to the order families pick their puppies. I set-up appointments when the puppies are around 5-6 weeks old and the families come and play with all the puppies in all the litters. Once you pick a puppy I will put a solid color collar on her/him and then set up a date when you want to pick your puppy up. I let the puppies go home at 7 weeks of age. They will have their first vaccination, worming, dewclaws removed and microchipped. There is a one year of guarantee for genetic issue with eyes, hip and heart.
